Rotation rule

FORMULA	$\text{topic} = ((\text{day}-1) + (\text{page\#}-1) + (\text{month}-1)) \bmod 31 + 1$
CADENCE	One post per page per day · cron 9:10 AM (run_pipeline.sh)
SKIP RULE	Rotation topic not eligible or already run this month → next eligible topic in sequence
SHARED TOPICS	Pages 31 apart (1 & 32 ... 11 & 42) get the same topic on the same day
SNAPSHOT FALLBACK	Data-only snapshot does not use up the topic; it retries next day
MONDAYS	Deal of the Week module added by the page, not the post
EXCLUDED	Rental and lease topics
