THE DATA

300,000+

Verified Physicians

Number of physicians utilizing Ant Group's new AI-powered workstation.

Ant Group’s AQ for Doctor platform now connects over 300,000 verified physicians, integrating AI across online consultations, patient management, and clinical decision support. This demonstrates AI’s growing role in enhancing physician efficiency and patient access.

01

Patients Gain Clarity, Empowered Decisions

New AI-powered patient portals, like Oracle Health's, translate complex medical jargon into plain language, helping patients better understand diagnoses, lab results, and treatment plans. This enhanced comprehension empowers individuals to take a more active role in managing their health and engaging with their care providers. These platforms also streamline administrative tasks such as appointment scheduling through natural language processing, making healthcare navigation more intuitive.

02

Physicians Boost Efficiency, Extend Reach

AI-powered workstations and digital platforms, such as Ant Group's AQ for Doctor, equip physicians with AI Medical Assistants for rapid clinical decision support and streamlined patient management. These tools are designed to reduce administrative burdens and enhance the efficiency of consultations, allowing medical professionals to focus more on direct patient care and extend their expertise to a broader population.
